Solar Pumping System

As a professional manufacturer of complete solar power system and solar water pump system ,Bluesun offer practical, professional and affordable AC and DC solar powered water pumping system to residential and commercial application.

Bluesun solar pumping system mainly consists of solar panels, the specialized pump inverter and water pump.

Application of solar water pump:

deep well solar pump system can be used to transfer clean water or other liquids similar to water in physical and chemical properties.

It is suitable for small living water supply, automatic water sprinkler system, small air conditioner system or supporting equipment etc.

1. Irrigation
2. Livestock
3. Garden Fountains
4. Home Supply
5. Water treatment systems
6. Large Scale Watering System for Commercial etc.
