## Product Description

### Outdoor integrated 90w solar street light 10800 lumen 5000k IP65 waterproof

Outdoor integrated 90w solar street light 10800 lumen 5000k IP65 waterproof are usually used as the primary lighting source of modern solar street lights, as the LED will provide much higher luminosity with lower energy consumption. The energy consumption of an LED fixture is at least 50% lower than the HPS fixture counterpart which is widely used as the lighting source in traditional street lights. A lack of warm-up time in LEDs also allows for use of motion detectors for additional efficiency gains.
