

500W Outdoor LED Tower Crane Lamp 150LM/W IP65 Waterproof

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: yahua lighting
- Certification: ce ,rohs ,ip65
- Model Number: WS-TD500
- Minimum Order Quantity: 1 Piece
- Price: negotiation
- Packaging Details: carton
- Payment Terms: L/C, T/T

Product Specification

- Power: 500W
- Working Voltage: AC100-277V
- PF: >0.95
- Luminous Efficiency: 150LM/W
- CRI: >80
- Highlight: 500W LED Tower Crane Lamp,
150LM/W LED Tower Crane Lamp,
IP65 LED Tower Crane Lamp

Product Description

500W Outdoor LED Tower Crane Lamp

Product Description:

LED light source all adopt automatic solid crystal welding line packaging lead-free wave welding process production, lamp life ≥ 50000 hours, annual light decline less than 5%, long life, low power consumption, pure color, green environmental protection and no pollution, cold light source design, no heat radiation, no harm to eyes and skin, no lead, mercury and other pollution elements, The lamp surface is matte or transparent glass, the interior is fully filled with high-grade, high polymer silicone waterproof, (silicone is flexible, not easy to fall off, not easy to aging) double waterproof, waterproof performance is strong, grade :IP65.

Feature:

1. The installation of lamps and lanterns is ceiling type, safe and reliable.
2. Protection level IP65.
3. Efficiency over 90%, power factor ≥ 0.95 .
4. Color rendering index $Ra \geq 70$, color moderate other colors can be selected.
5. Isolated constant current drive, safe, stable and reliable.
6. The use of convection heat dissipation structure, the use of high quality heat dissipation aluminum, prolong the life of the lamps.
7. Ribbon lighting optical design, improve the uniformity of indoor area, no stroboscopic.

Product detail:

Luminous Efficiency	150LM/W
Working voltage	AC100-277V
Wattage	500W
Led Chip	/osram/cree
CCT	55000-55200K
Waterproof	IP65
Power factor	>0.95
CRI	>80
Certificate	CE/ROHS/IP65

Application:

Tower crane lamp is widely used in construction sites, tower crane, road construction, bridge construction, football stadium ,airport,Warehouses and other large-scale lighting places.

Application

Airport、Stadium、Stadium
Large factories、Warehouses

Ports、Docks、
Shipyards、Airports

GAS Station
Indoor stadium
Logistics center
.....

Package:

产品型号			
额定功率	<input checked="" type="checkbox"/> 500W	<input type="checkbox"/> 600W	
反光杯角度	<input checked="" type="checkbox"/> 60°		
色温	<input type="checkbox"/> 3000K	<input type="checkbox"/> 4500K	<input checked="" type="checkbox"/> 5000K <input type="checkbox"/> 6500K
装箱数量	1PCS		
包装尺寸	46.5X46.5X48.5 CM		

N.W: 7.12 KG
G.W: 9.7 KG

FAQ:

1.Is the tower lamp square or round?

Whether it is square or round, the size of the luminescent spot varies from 0.5 meter to 1 meter, but the range is the same. The luminous range is related to the Angle, the same Angle irradiation range is the same.

2.What are the precautions for the installation of tower crane lights?

Disconnect the power supply before installing lamps or replacing accessories;

Be sure to install safety chain when installing lamps and lanterns;

When connecting the power supply, pay attention to the adaptation of the input voltage and the lamp. After connecting the power cable, do a good job of waterproof and insulation treatment.
