

# All In One Aluminum Alloy Solar Street Light Timer Control Lighting Mode

### **Basic Information**

• Place of Origin: China

• Brand Name: Yahua lighting · Certification: CE, RoHS, FCC

• Delivery Time: 5-8 Days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

## **Product Specification**

• CRI: Ra>80 • IP Rating: IP65

• Material: Aluminum Alloy • Power: 30W-200W

• Lighting Mode: Motion Sensor, Timer Control

• Color Temperature: 3000K-6500K • Warranty: 3-5 Years

• Highlight: IP65 Solar LED Road Lights,

**Aluminum Alloy Integrated Solar Street Lighting** 

, 3000K Solar Street Light

## **Product Description:**

The All in One Solar LED Street Light is made of high-quality aluminum alloy material and equipped with the latest LED light source technology. It provides a \_ superior lighting solution for outdoor lighting applications, such as roads, parks, highways, and other areas. The light color temperature can be adjusted from 3000K to 6500K, and the voltage is AC85-265V. It can work in a wide range of temperatures from -40°C to 60°C. This all-in-one solar street light is designed for maximum efficiency and cost-effectiveness, providing a reliable and safe lighting solution for your road or outdoor area.

#### Features:

Product Name: Solar LED Street Light

Power: 30W-200W CRI: Ra>80

Certification: CE, RoHS, FCC Life Span: 50,000hrs

Lighting Mode: Motion Sensor, Timer Control

All-in-one Solar Street Light Solar Lights for Road 300W LED Solar Street Light

## **Applications:**

Yahua Lighting is the leading brand of all-in-one solar streetlights. The lights are certified with CE, RoHS, and FCC, and boast an aluminum alloy material built for longevity, with a life span of 50,000 hours. The color temperature of Yahua Lighting's street lights ranges from 3000K to 6500K, with a CRI of Ra>80 to ensure accurate and vivid color rendering.

The Yahua lighting all-in-one solar street lights are suitable for a variety of different environments, such as residential streets, commercial complexes, parks, campuses, and parking lots. The 300w LED Solar Street Light is perfect for illuminating large spaces and is capable of providing sufficient lighting for up to 24 hours with its powerful battery.

### **Technical Parameters:**

Parameters	Specifications
Power	30W-200W

Parameters	Specifications
Light Source	LED
Light Distribution	Symmetric/Asymmetric
IP Rating	IP65
Warranty	3-5 Years
Lighting Mode	Motion Sensor, Timer Control
Beam Angle	120°
Luminous Flux	3000-18000lm
Certification	CE, RoHS, FCC
Life Span	50,000hrs
Product Name	Solar LED Street Light

#### **Customization:**

Solar LED Street Light

Brand Name: Yahua lighting Place of Origin: China Certification: CE IP65 ROHS

Lighting Mode: Motion Sensor, Timer Control

Luminous Flux: 3000-18000lm

CRI: Ra>80

Material: Aluminum Alloy Color Temperature: 3000K-6500K

Special Features: Solar Street Light All in One, 300w LED Solar Street Light, All in One Solar Street Light

#### FAQ:

Q: What is a Solar LED Street Light?

A: A Solar LED Street Light is an outdoor lighting solution powered by solar energy. It is designed to provide efficient and reliable lighting for public areas such as roads, parks, and squares. It is certified CE IP65 ROHS and is manufactured by Yahua Lighting in China.

Q: What are the benefits of using Solar LED Street Lights?

A: Solar LED Street Lights offer a number of benefits over traditional lighting options. They are energy-efficient, cost-effective, and require minimal maintenance. Additionally, they are environmentally friendly, as they generate no emissions and require no energy from the grid.

Q: What kind of warranty do Solar LED Street Lights come with?

A: Solar LED Street Lights are built to last and are designed to withstand all kinds of weather conditions. However, please refer to the manufacturer's warranty for any specific information regarding the warranty terms.

Q: How long do Solar LED Street Lights last?

A: Solar LED Street Lights are designed for long-term use and are typically designed to last for up to 50,000 hours.

Q: How do Solar LED Street Lights work?

A: Solar LED Street Lights use a solar panel to capture sunlight and convert it into electricity. This electricity is then used to power the LEDs, which provide energy-efficient lighting for public areas.
