## Product Description

### Product Description:

Outdoor Solar LED Lights are a perfect choice for lighting up your outdoor space. These lights are powered by the sun and can provide a bright, efficient light source for your garden, patio, or driveway. With a charging time of 6-8 hours, these lights are guaranteed to last through the night. The waterproof level is IP65, meaning these lights can withstand rain, snow, and other inclement weather. The power of these lights ranges from 60-200W, providing you with the perfect amount of lighting for your space. The working temperature of these lights is -20°C~60°C, meaning they are perfect for both summer and winter climates. The light color of these solar LED tube lights is a bright, clear white, perfect for illuminating your outdoor space. These solar tube lights for home are perfect for creating an inviting atmosphere in your garden, patio, or driveway.
