Product Description

Product Description:

The Integrated Solar Street Light is an energy-saving, environment-friendly street light powered by solar energy. This street light is equipped with a high-efficiency LED chip, such as Bridgelux, Cree, or Lumileds, that provides superior lighting performance and brightness. This solar street light is specifically designed to operate in a wide range of temperatures, from -20°C to +50°C, making it suitable for outdoor use in a variety of locations. This solar street light is also equipped with a lithium battery that allows it to operate for extended periods without having to be recharged. The Integrated Solar Street Light offers a wide range of color temperatures, from 3000K to 6000K, allowing users to choose the color that best suits their environment. Moreover, this solar street light is designed with an integrated power supply for improved convenience and performance. As such, the Integrated Solar Street Light is an ideal choice for anyone looking for a reliable, energy-efficient and solar powered street light fixture.

Features:

Product Name: Integrated Solar Street Light

IP Rating: IP65

Warranty: 3 Years

Light Type: Street Light

Solar Panel: Monocrystalline

Life Span: 50,000 Hours

Applications:

Yahua Lighting All-in-One Integrated Solar Street Light is the perfect choice for outdoor lighting. With CE, IP65, ROHS, ISO certifications, Yahua Lighting offers a reliable and secure lighting solution. With a Bridgelux/Cree/Lumileds LED chip and monocrystalline solar panel, the Yahua Lighting Integrated Solar Street Lamp can provide up to 8 hours of illumination. The lamp has a color temperature range of 3000K-6000K and an IP65 waterproof rating. Delivery time is 5-8 days and payment terms are available in L/C, D/A, D/P, T/T, Western Union, and MoneyGram.
