30W - 200W Automatic Solar Street Lighting With 50 Years Life Span

Our Product Introduction

For more products please visit us on solarledstreet-light.com

Basic Information

- Place of Origin: China
- Brand Name: Yahua lighting
- Certification: CE, RoHS, FCC
- Delivery Time: 5-8 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000pcs/month

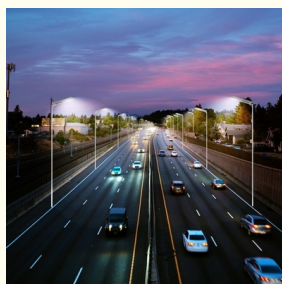

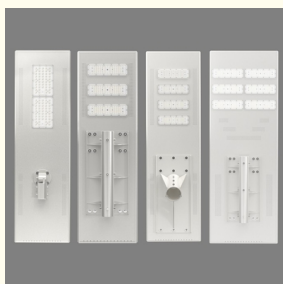

Product Specification

- Working Temperature: -40°C-60°C
- Luminous Flux: 3000-18000lm
- Life Span: 50,000hrs
- Light Source: LED
- Power: 30W-200W
- CRI: Ra>80
- IP Rating: IP65
- Highlight: Automatic Solar LED Street Light, IP65 Solar Street Lighting, 200W Solar Street Lighting

Product Description

Product Description:

Our Solar LED Street Light offers an energy-efficient, eco-friendly and cost-effective way to light up roads, parking lots, pathways and more. Our solar street lighting system is comprised of integrated solar LED light, solar panel, battery and intelligent motion sensor. It is designed to provide reliable and practical outdoor lighting solutions that are energy-saving, environmentally friendly and efficient. It is certified with CE, RoHS and FCC, which ensures its high quality. With lighting mode of motion sensor and timer control, the light can be automatically turned on and off, providing convenience and reliability. It also has a high color rendering index ($Ra > 80$) and adjustable color temperature from 3000K to 6500K, making the light look more natural and comfortable. The voltage range is AC85-265V, which is suitable for most places. Our solar power street light is a perfect choice for providing reliable, eco-friendly and energy-saving lighting solutions.

Features:

Product Name: Solar LED Street Light

IP Rating: IP65

Certification: CE, RoHS, FCC

Life Span: 50,000hrs

Luminous Flux: 3000-18000lm

Light Source: LED

Solar Street Lighting Controller

Solar Rechargeable Street Light

Technical Parameters:

Parameter	Details
Voltage	AC85-265V
Light Source	LED
Life Span	50,000hrs
Certification	CE, RoHS, FCC
Warranty	3-5 Years
Color Temperature	3000K-6500K
Light Distribution	Symmetric/Asymmetric
Material	Aluminum Alloy
Lighting Mode	Motion Sensor, Timer Control
Working Temperature	-40°C-60°C
Special Features	Solar Rechargeable Street Light, Solar Energy Powered Street Light, Solar Street Lighting Controller

Applications:

Yahua lighting Solar LED Street Light is the perfect and cost-effective solution for automatically illuminating outdoor areas such as streets, parks, pathways, walkways, and more. With a CE IP65 ROHS ISO certification and a 5-8 days delivery time, these solar powered street lights are available in 30W-200W power, with a voltage of AC85-265V and a color temperature of 3000K-6500K. They have a particularly long life span of 50,000hrs, and use an adjustable symmetric/asymmetric light distribution for a uniform spread of light. With a payment term of L/C, D/A, D/P, T/T, Western Union, MoneyGram, and a supply ability of 3000pcs/month, Yahua lighting is the perfect choice for a solar rechargeable and automatic solar street lighting system.

Customization:

Yahua lighting offers custom service for Integrated Solar LED Light, Solar Energy Powered Street Light and Solar Energy Powered Street Light. Our products are CE IP65 ROHS ISO certified and come with a life span of 50,000 hrs. The CRI is Ra>80 and the material is Aluminum Alloy. The warranty is 3-5 years and the light distribution is symmetric/asymmetric. We offer delivery time of 5-8 days and payment options like L/C, D/A, D/P, T/T, Western Union and MoneyGram. Our monthly supply ability is 3000pcs.

Support and Services:

Solar LED Street Light offers customers technical support and services, including: -----
Installing and testing the product.
Providing customer service and technical assistance.
Providing after-sales service and maintenance.
Providing technical training and guidance.
Providing replacement parts and supplies.

Packing and Shipping:

Solar LED Street Light Packaging and Shipping -----
The Solar LED Street Light will be carefully packaged in a box with bubble wrap or other suitable cushioning material to ensure safe transport. The box will be sealed with tape and labeled with the customer's address. It will then be shipped through a reliable courier service.
