

# Aluminum Alloy Integrated Solar Street Light With 140LM/W Luminous

## **Basic Information**

• Place of Origin: China

• Brand Name: Yahua Lighting · Certification: CE IP65 ROHS ISO

• Delivery Time: 5-8 days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

# **Product Specification**

· Waterproof Level: IP65

3.2V/20AH • Battery Capacity:

• Solar Panel: Monocrystalline Silicon

• Luminous Flux: 140LM/W Working Temperature: -20 ~+60

• Lighting Time: More Than 36 Hours Material: Aluminum Alloy

• Installation Height: 5-8m

• Highlight: IP65 Integrated Solar Street Lamp,

> 140LM/W Integrated Solar Street Light, **Aluminum Alloy Integrated Street Light**

300W

# **Product Description:**

Our Integrated Solar Street Light is a superior outdoor lighting system that is powered by advanced monocrystalline silicon solar panels and is designed to provide reliable lighting and illumination for more than 36 hours. It has a wide lighting angle of 120° and is IP65 waterproof, making it suitable for outdoor applications such as parking lots, streets, pathways, and gardens. The solar lighting system is equipped with a 3.2V/20AH rechargeable lithium battery that provides excellent performance and long life. Our integrated solar lighting system is designed to meet all your lighting needs and is ideal for illuminating outdoor spaces with a reliable and efficient source of light.

#### Features:

Integrated Solar Street Lighting: 140LM/W-

Integrated Solar Lighting: Solar Light Source

Solar Powered Street Lamp: More Than 36 Hours Lighting Time Solar Street Lighting: 5-8m Installation Height, 120° Lighting Angle

#### **Technical Parameters:**

Paramater	Specification
Solar Panel	Monocrystalline Silicon
Power	30-300W
Lighting Angle	120°
Light Source	Solar
Working Temperature	-20 ~+60
Color Temperature	6000K
Sensing Distance	8-10m
Warranty	3-5 Years
Battery Capacity	3.2V/20AH
Voltage	12V

## **Applications:**

Yahua Lighting, a China-based manufacturer of integrated solar street lights, is a leader in solar-powered street lighting solutions. With a CE IP65 ROHS ISO certification, Yahua Lighting's integrated solar street lamps are designed for outdoor use and have a waterproof level of IP65. These lamps come in a variety of colors, including a 6000K color temperature, and are powered by monocrystalline silicon solar panels. Furthermore, these lamps offer more than 36 hours of lighting time and are solar powered, making them an environmentally-friendly lighting solution. With a delivery time of 5-8 days, Yahua Lighting's integrated solar street lamps are a cost-effective and reliable investment. And with payment terms such as L/C, D/A, D/P, T/T, Western Union and MoneyGram, customers have a variety of options when purchasing their Yahua Lighting solar powered street lamps and solar powered outdoor lights.

#### **Customization:**

Customized Integrated Solar Street Light with Yahua Lighting Brand Name.

Our Integrated Solar Street Light is made in China and certified by CE, IP65, ROHS and ISO. It is powered by a 3.2V/20AH battery and has a 6000K color temperature. The lighting angle of the light is 120° and the power is 30-300W with a luminous flux of 140LM/W. We guarantee a 5-8 days delivery time and accept payment terms including L/C, D/A, D/P, T/T, Western Union, MoneyGram. Our Integrated Solar Street Light is the perfect solution for solar powered outdoor light, integrated solar street lighting system.

#### **Support and Services:**

Integrated Solar Street Light provides reliable technical support and service. Our professional technical support team is available 24/7. — We have a team of trained and experienced technicians to provide comprehensive technical support and service for your solar street light system. Our technical support staff can help you troubleshoot any issues you may have in the installation, operation and maintenance of your solar street light system. We also provide comprehensive training and guidance on the use of your solar street light system. Our technical support and service also includes technical advice, replacement parts, preventive maintenance and more.

#### Packing and Shipping:

Packaging and Shipping of Integrated Solar Street Light

Integrated Solar Street Light products are packaged with thick and durable materials, such as cardboard boxes, wooden boxes, and foam packaging. All of our packaging materials comply with international shipping standards, ensuring that the products are packed securely and safely during transportation.

We provide a wide range of delivery services, including sea, air, and express shipping. Depending on the customer's location, we will arrange the most cost-effective shipping method for the customer.

### FAQ:

Integrated Solar Street Light\_FAQ\_\_\_
