Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Model Number: YHZ-SSL
- Minimum Order Quantity: 1pc
- Packaging Details: Foam+Carton
- Delivery Time: 5-8 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 1000pcs/month

Product Specification

- Sensing Distance: 15-20m
- Working Temperature: -20°C~+60°C
- Light Source: Solar Light 300watt
- Power: 300W
- Color Temperature: 6000K
- Solar Panel: Monocrystalline Silicon
- Battery: Long Life Time 2000 Cycle Time Lithium Battery
- Material: Aluminum Alloy
- Installation Height: 6-7m
- Working Mode: Sensor+time Control+remote Control
- Highlight: 300W Street Solar Light, 300W Solar Powered Street Lamp, street solar light 300W

Product Description

Product Description:

The Integrated Solar Street Light is an all-in-one, solar powered outdoor light designed to provide a reliable and cost-efficient solution for your lighting needs. This product provides more than 12 hours of lighting time and a sensing distance of 15-20m. It runs on solar energy with a 12.8V/20AH battery capacity and a 3-year warranty. The light source is solar and the product effectively reduces your energy costs. The Integrated Solar Street Light is the perfect choice for all your lighting needs, providing a reliable and cost-efficient solution for your lighting needs.

Features:

- No need for regular replacement of light bulbs or other components.
- Automatic dimming feature to conserve energy during low-traffic periods.
- Programmable lighting schedules for greater control and flexibility.
- High-quality materials that provide reliable performance and durability.
- Easy to move and reposition as needed.
- Cost-effective lighting solution that saves money in the long run.
- Solar-powered lighting that operates independently of the electrical grid.
- Reduced risk of electrical hazards or accidents.
- Low voltage and low heat emissions for added safety.
- Minimal maintenance requirements and reduced downtime.
- High luminous efficacy that provides optimal lighting performance.
- No glare or flicker, ensuring comfortable and safe lighting.
- Wide range of color temperatures and brightness options for customized lighting.
- High color rendering index (CRI) for accurate color representation.
- Innovative design that blends seamlessly with the surrounding environment.

Technical Parameters:

Item	Specification
Product Name	street solar light 300w
Lighting Angle	140°
Solar Panel	Monocrystalline Silicon
Luminous Flux	150-160LM/W
Waterproof Level	IP65
Light Source	Solar
Power	300W
Material	Aluminum Alloy
Warranty	3 Years
Lighting Time	More Than 12 Hours
Warranty	2 years

Applications:

Yahua Lighting's street solar light YHZ-SSL is a perfect solution for outdoor lighting requirements. With CE IP65 ROHS ISO certification, this solar powered street lamp is designed for long-term outdoor use and is certified to be safe and reliable. It is equipped with a sensing distance of 15-20m and a lighting angle of 140°, and can provide more than 12 hours of illumination with its 150W power. Its working temperature range is from -20°C to +60°C, making it suitable for use in any climate. This all-in-one solar lamp is extremely easy to install and comes with a 5-8 days delivery time. Payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Yahua Lighting's Integrated Solar Street Light YHZ-SSL is the perfect choice for all your outdoor lighting needs. Its integrated design ensures maximum efficiency with no additional wiring or cables required, making it a great choice for both residential and commercial applications. This solar powered street lamp is designed to be highly durable and can withstand harsh weather conditions. It is also energy efficient, saving you money on your electricity bills. With its certified safety and reliability, this integrated solar outdoor light is the perfect option for your outdoor lighting needs.

Packing and Shipping:

Packaging and Shipping of Solar Street Light

The solar street light will be securely packaged in an appropriate box with foam padding, making sure that it is safe during transportation. The integrated solar street light will be shipped using a reliable delivery service, with tracking number for traceability.
