Product Description

Product Description:

200W 300W 400W 500W 600W Sport Tennis Court Led arena lights stadium led flood light.

Features:

Product Name: 200W LED Flood Light.

Material: Aluminum

Dimensions: 400*300*50mm

IP Rating: IP65

Light Source: LED

Luminous Flux: 28000lm

Technical Parameters:

Parameter	Value
Product Name	200W LED Flood Light
Application	Outdoor
Light Source	LED
Luminous Flux	19500lm
Color Temperature	3000K-6000K
CRI	>80
Beam Angle	120°
Warranty	3 Years
Input Voltage	AC85-265V
Dimensions	400*300*50mm
IP Rating	IP65

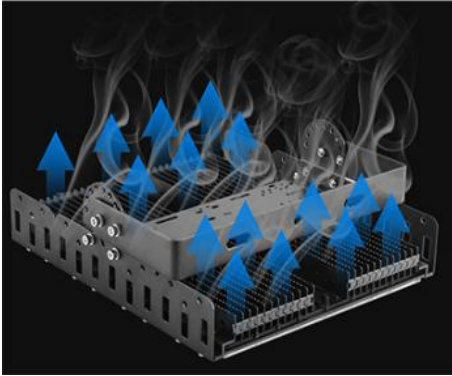

High waterproof

180° Adjustable

High heat dissipation

External adjustment

Applications:

Yahua Lighting YHZ-FL 150w LED Flood Light is a 400*300*50mm outdoor lamp with IP65 waterproof rate. This flood light is made from aluminum with a 120° beam angle, with an input voltage of AC85-265V. The light source is LED, which is energy efficient and long lasting. With this LED flood light, you can enjoy high quality lighting for outdoor activities such as camping, fishing, lighting up your garden, sports, and more. The flood light is designed to be durable and is perfect for large area lighting with bright illumination. It is also energy saving and has a long lifespan, making it a great choice for outdoor lighting.

Customization:

Yahua Lighting is proud to offer LED Flood Lights with model number YHZ-FL. Our LED Flood Lights are made in China and have a CRI of greater than 80. Our LED Flood Lights come in a size of 400*300*50mm and have an input voltage of AC85-265V. With 50,000 hours of life span, our LED Flood Lights come in a variety of color temperatures ranging from 3000K-6000K. Choose Yahua Lighting for your LED Flood Lights today!

Production line

Packing and Shipping:

Packaging and Shipping for LED Flood Light

LED Flood Light has a wide range of application, including commercial, industrial and residential. In order to ensure the safe arrival of the product, we must carefully select the appropriate packaging and shipping method.

Packaging for LED Flood Light

LED Flood Light is a fragile product. In order to ensure that it arrives at the customer's destination safely, it is necessary to select a suitable packaging method. Generally speaking, the packaging materials of LED Flood Light include foam, carton, and bubble wrap. The foam packaging is used to protect the product against shock and vibration, while the carton and bubble wrap are used to protect the product from dust and moisture.

Shipping for LED Flood Light

We provide different shipping options for customers, including air, sea, and ground transportation. The choice of shipping method depends on the customer's needs and the distance between the two locations. Air transportation is the fastest and most expensive, while sea transportation is the most economical and slowest. Ground transportation is suitable for short distance shipments.
