Product Description

Product Description:

Indoor LED lights are specially designed for indoor applications, offering superior lighting performance. They are available in a wide range of customized sizes, from 5W to 200W, to meet different lighting requirements. With an IP rating between IP20 and IP65, they are well protected against dust and moisture and provide reliable long-term operation. The LED lights come with a lifespan of 50,000 hours, making them ideal for indoor shop lights, indoor floodlight, and indoor farming lights. They offer energy-saving, low maintenance, and long-lasting lighting solutions.
