

Monocrystalline Silicon Integrated Automatic Solar Street Lighting With Inbuilt Battery 150-160lm/W

Our Product Introduction

For more products please visit us on solarledstreet-light.com

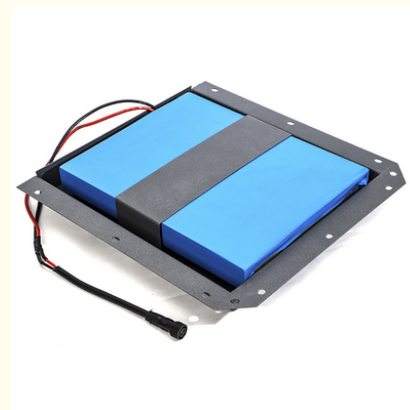

Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Model Number: YHZ-SSL
- Minimum Order Quantity: 1
- Price: USD85-159
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/month

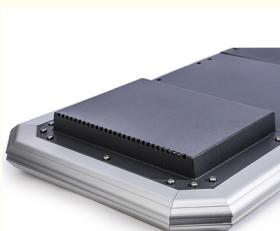

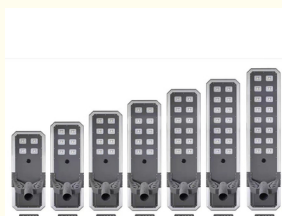

Product Specification

- Battery Capacity: 12.8V 32Ah/48Ah
- Sensing Distance: 20-25m
- Lighting Angle: 140°
- Warranty: 3 Years
- Light Source: LED
- Color Temperature: 6000K
- Lighting Time: More Than 12 Hours
- Installation Height: 9-12m
- Highlight: integrated solar led street light 150lm/w,
integrated solar street light 6000K,
integrated solar street light 160lm/w

Product Description

Product Description:

Our integrated solar street light is made of aluminum alloy, which is durable and anti-corrosion, and is designed for years of use. It has a built-in solar panel, LED light source, lithium battery and intelligent controller. It is not only a lamp, but also a small solar power generation system, which provides lighting for more than 12 hours after the battery is fully charged. The luminous flux is up to 150-160LM/W, and the sensing distance is 20-25m. The 140° lighting angle can reach a wider area. In addition, our all-in-one solar lamp is designed for easy installation. It is an integrated solar lighting system, providing a perfect solution for convenient and energy-efficient lighting.

Features:

Product Name: **Integrated Solar Street Light**

Lighting Angle: **140°**

Color Temperature: **6000K**

Voltage: **25.6V**

Sensing Distance: **20-25m**

Luminous Flux: **150-160LM/W**

Technical Parameters:

Parameter	Monocrystalline Silicon Integrated Solar Street Lighting 150-160LM/W
Product Name	Integrated Solar Street Light
Light Source	LED
Material	Aluminum Alloy
Waterproof Level	IP65
Lighting Angle	140°
Luminous Flux	150-160LM/W
Installation Height	9-12m
Sensing Distance	20-25m
Voltage	25.6V
Power	150W
Warranty	3 Years

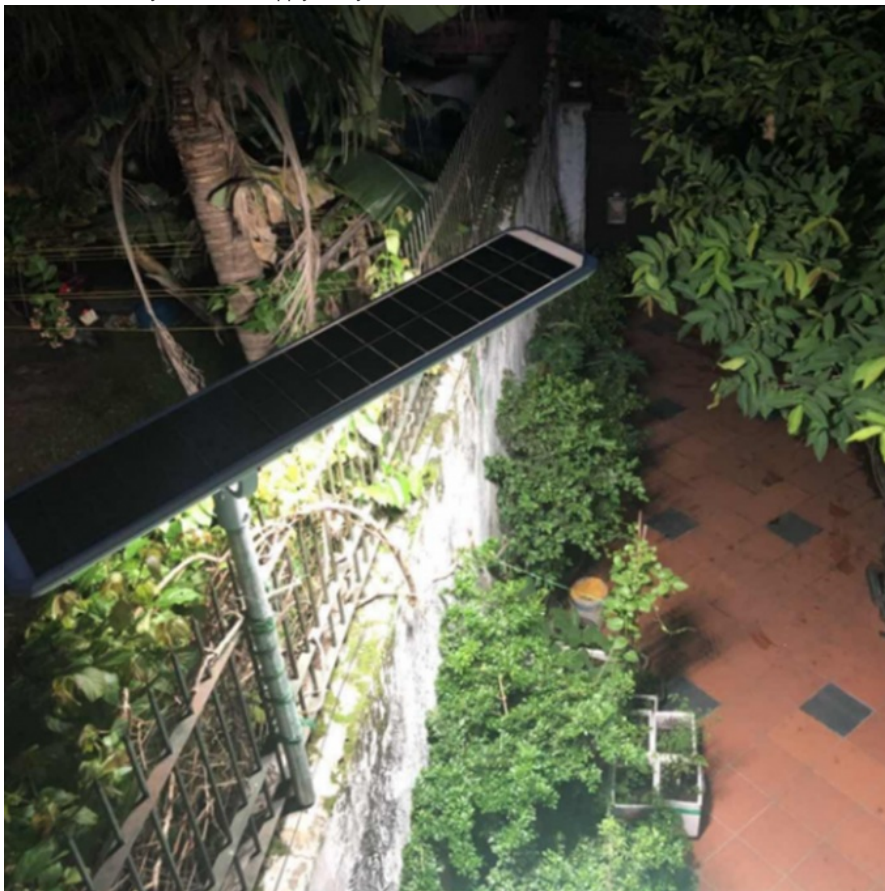

Applications:

Integrated Solar Street Light

Yahua Lighting's Integrated Solar Street Light, YHZ-SSL, is a top-of-the-line product with certification of CE IP65 RoHS ISO. It is perfect for areas with limited access to electricity, or even for those that want to reduce their energy consumption while still having a reliable light source. It is designed to withstand extreme weather conditions, from -20 to +60, and has an impressive sensing distance of 20-25 meters. The light source is LED, and the installation height is 9-12 meters, allowing it to remain lit for more than 12 hours.

Yahua Lighting's Integrated Solar Street Light is available with a minimum order quantity of 1 piece, with prices ranging from USD105-249. It is packaged with anti-collision and shatterproof packaging, and is delivered within 5-8 days. Payment terms include T/T, Western Union, and MoneyGram. The supply ability is 500Pcs/month.

Support and Services:

Integrated Solar Street Light offers an extensive range of technical support and services to ensure the best possible performance from your system.

Our technical support team is available to answer any questions you may have about installation, operation, maintenance, and repair. We also provide comprehensive training to ensure that you are knowledgeable in the use of your system.

We offer a range of services including installation, commissioning, operation and maintenance, and repair. Our team of experienced professionals are dedicated to providing the highest quality service for your system.

We also provide ongoing support for our products, including troubleshooting, updates, and advice on best practices. We strive to ensure that your system is running optimally and that any potential issues are addressed quickly and efficiently.

Packing and Shipping:

Packaging and Shipping - Integrated Solar Street Light

Integrated solar street lights are designed for easy packaging and shipping. The packages are designed to ensure the correct and safe arrival of the lights to their destination. The lights are securely packaged in boxes that are strong and durable.

The boxes are bubble-wrapped and cushioned to prevent any kind of damage during shipping. The lights are also sealed properly,

making sure that no moisture or dirt gets inside the box. The boxes are clearly labeled with the delivery address and the product name.

The lights are shipped using reliable carriers, including ground, air, and sea. The shipping time depends on the selected delivery method, as well as the destination. The tracking number is provided for each shipment, which allows customers to track their order in real-time.
