

25.6v Monocrystalline Silicon Integrated Solar Lighting With 20-25m Sensing Distance

Our Product Introduction

For more products please visit us on solarledstreet-light.com

Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Model Number: YHZ-SSL
- Minimum Order Quantity: 1
- Price: USD105-249
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/month

Product Specification

- Sensing Distance: 20-25m
- Solar Panel: Monocrystalline Silicon
- Voltage: 25.6V
- Lighting Angle: 140°
- Power: 150W
- Waterproof Level: IP65
- Material: Aluminum Alloy
- Installation Height: 9-12m
- Highlight: 20m integrated solar led street light,
monocrystalline silicon solar integrated lamp,
25m solar integrated lamp

Product Description

Product Description:

Our Integrated Solar Street Light is the perfect solution for outdoor lighting needs. With an IP65 waterproof level, it is designed to withstand extreme weather conditions. The monocrystalline silicon solar panel is designed to absorb maximum sunlight, making it more efficient and reliable. Made of aluminum alloy, the light is lightweight and durable. Its 150-160LM/W luminous flux provides sufficient illumination, making it a perfect choice for outdoor lighting. With a 25.6V 32Ah/48Ah battery capacity, the light is able to work for a long time. It is a perfect choice for solar powered outdoor light, integrated solar outdoor light, and integrated solar street lighting.

Features:

Product Name: Integrated Solar Street Light

Color Temperature: 6000K

Installation Height: 9-12m

Solar Panel: Monocrystalline Silicon

Power: 150W

Working Temperature: -20 ~+60

Features: All-in-one Solar Street Light, Integrated Solar Lighting System

Technical Parameters:

Attributes	Specification
Lighting Angle	140°
Solar Panel	Monocrystalline Silicon
Warranty	3 Years
Power	150W
Sensing Distance	20-25m
Lighting Time	More Than 12 Hours
Installation Height	9-12m
Waterproof Level	IP65
Luminous Flux	150-160LM/W
Voltage	25.6V

Applications:

Yahua Lighting's Integrated Solar Street Light (YHZ-SSL) is a professional integrated solar lighting system designed for outdoor lighting applications. It has been certified by CE IP65 ROHS ISO, and comes with anti-collision and shatterproof packaging. The minimum order quantity is 1, and the price ranges from USD105-249. It takes 5-8 days to deliver, and payment can be done via T/T, Western Union, or MoneyGram. The supply ability is 500Pcs/month. The lighting angle is 140°, and the power is 150W. The installation height is 9-12m, and the lighting time is more than 12 hours. Lastly, the color temperature is 6000K.

Customization:

Yahua Lighting offers customised services for its Integrated Solar Street Light with the following features:

Brand Name: Yahua Lighting

Model Number: YHZ-SSL

Place of Origin: China

Certification: CE IP65 ROHS ISO

Minimum Order Quantity: 1

Price: USD105-249

Packaging Details: Anti-collision and shatterproof packaging

Delivery Time: 5-8 days

Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 500Pcs/month
Voltage: 25.6V
Luminous Flux: 150-160LM/W
Light Source: LED
Sensing Distance: 20-25m
Power: 150W
Integrated Solar Outdoor Light, Intergrated Solar Lighting System, All-in-one Solar Lamp

Support and Services:

Integrated Solar Street Light Technical Support & Service

We offer comprehensive technical support and service for our Integrated Solar Street Light products. Our team consists of highly trained and experienced technicians who are on hand to provide the following services:

Diagnosis and troubleshooting of system faults

Maintenance and repair of all components

Assistance with installation and setup

Guidance on best practices for operation and maintenance

Guidance on safety procedures

If you have any questions or require assistance with any of our products, please don't hesitate to contact us. We are available 24/7 to assist with any of your technical needs.

Packing and Shipping:

Packaging and Shipping of Integrated Solar Street Light

Integrated Solar Street Light is securely packaged in high quality carton boxes with customised foam cut-outs to ensure that the product is not damaged during transit. The packaging is designed to ensure that the product is safe from shock, vibration and dust during the delivery process. Furthermore, all products are securely sealed with quality tape for extra protection.

Integrated Solar Street Light is shipped by sea and air freight, depending on customer requirements. We use reliable shipping carriers to ensure that the product is delivered on time and in perfect condition. All orders are tracked and customers are notified of their shipment status.
