Product Description

Product Description:

Outdoor Solar LED Lights are an ideal choice for those seeking an efficient and cost-effective lighting solution. Our solar powered tube lights are designed with advanced technology to provide superior lighting performance. With a unit size of 1260*425*160mm and a net weight of 32kg, these lights are easy to install and use. Moreover, they are certified by ISO/CE / ROHS / IP65, providing you with a reliable assurance of their quality. These lights are equipped with a maximum lumen of 16800lm, and they can be charged within 6-7 hours in sufficient strong sunlight. These solar powered tube lights are highly efficient and can be used for a variety of outdoor lighting applications, such as lighting up pathways, gardens, and driveways. Thanks to their solar power source, they are also an eco-friendly choice for your outdoor lighting needs.
