Product Description

Product Description:

Solar Panel Street Lights are the perfect lighting solution for areas with limited access to electricity. Powered by solar energy, these lights are an eco-friendly and cost-effective way to light up roads, pathways, and other outdoor areas. Our Solar Panel Street Lights feature a color temperature of 5000K-6000K and provide 12000 lumens of brightness, while consuming only 120W of power. The lights also come with a 3-year warranty and have a time control lighting mode, allowing you to easily adjust the brightness and energy usage of the lights. With their high-efficiency solar panel system, these Solar Powered Road Lights are ideal for illuminating roads, pathways, and other outdoor spaces. With these Solar Powered Street Lights, you can ensure your outdoor areas are well-lit, energy-efficient, and eco-friendly.
