Product Description

Product Description:

Outdoor Solar LED Lights is an ideal lighting solution for country roads, courtyards, parks, communities, factories, balconies, walkways, highways, and other outdoor lighting. With a 6V/40W solar panel, it can absorb and convert sunlight into electrical energy during the day, and then light up for 6-7 hours with enough strong shine. The 120° lighting viewing angle and 600*350*17mm unit size ensures that it can cover a wide range of outdoor lighting areas. It is the perfect choice for solar tube lights for home, solar led tube light, solar outside lights, solar powered tube lights, and more.

If you're looking for solar tube light, solar led tube light, solar tube lights for home, or solar led tube lights for home, look no further than Yahua Lighting!

Packing and Shipping:

Outdoor Solar LED Lights Packaging and Shipping

Outdoor Solar LED Lights are packed in a sturdy cardboard box with a plastic cover. The box is designed to protect the lights from weather and damage during shipping. The box also includes instructions for installation and use of the lights.

Outdoor Solar LED Lights can be shipped via ground or air, depending on the customer's needs. Ground shipping is usually the most cost-effective option for customers within the continental United States. For customers outside the continental United States, air shipping may be required.
