Product Description

Product Description:

Outdoor Solar LED Lights are the perfect way to illuminate your outdoor space. They provide bright, long-lasting light with no electricity costs. The solar panel converts solar energy into electricity, which is then stored in the 3.2V/40AH Lithium Battery (LiFePo4 Battery). The lights are made from high-quality Aluminium Alloy and are lightweight, with a total weight of 4.1kg and a unit size of 600*350*17mm. Our Outdoor Solar LED Lights are ideal for a variety of applications, including lighting up pathways, driveways, gardens, and more. They are easy to install and require no wiring or maintenance. The solar panel collects sunlight and converts it to energy, so you can enjoy bright light with no additional costs.

These Outdoor Solar LED Lights offer a great way to light up your outdoor space without adding to your electricity bill. They are eco-friendly, reliable, and energy-efficient, making them a great choice for those looking for a cost-effective and eco-friendly lighting solution. Our solar LED tube lights are perfect for illuminating pathways, driveways, gardens, and more.
