Product Description

Product Description:

Our Solar Panel Street Light is a high-performance, energy-saving, and environmentally friendly solution for outdoor lighting. This light is powered by solar energy, so it does not require an external power source or wiring. The light has a lumen output of 12000lm, and a power output of 120W, making it one of the most powerful solar street lights on the market. It is designed to withstand harsh weather conditions and is vandal-resistant. The light post is available in a variety of sizes and colors to fit your needs. Our Solar Panel Street Light has a 3-year warranty and comes with a remote control for easy operation. It is perfect for illuminating pathways, streets, parking lots, and other outdoor spaces. With its solar-powered design, this light is the best choice for solar powered path lights, solar powered street lighting, and solar powered street light.
