2023 Professional On/Off Grid Solar System 3KW/5KW/10KW For Household Energy Storage Wholesale Price From Factory

Our Product Introduction

For more products please visit us on solarledstreet-light.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Yahua Lighting
- Certification: CE NSF DLC FCC
- Model Number: YHZ-SPS

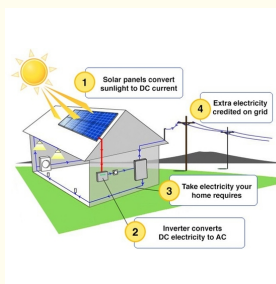

Product Specification

- Battery: Lithium Battery
- Size: Customized
- Power: 1000W
- Solar Panel: Monocrystalline
- Mounting Brackets: Roof/ground Installation
- Output Voltage (V): 110/220/220/230/240/380/400V
- Output Frequency: 50/60Hz
- Solar Panel Warranty: 12 Years
- Application: Home, Commercial, Industrial
- Controller Type: MPPT
- Highlight: Off Grid Solar System 3KW, Household On Grid Solar System, Monocrystalline Solar Power System

Product Description

2023 Professional On/Off grid Solar System 3KW/5KW/10KW For Household Energy Storage Wholesale Price From Factory

Product Description:

Solar Power System is the perfect solution for those looking for a reliable and efficient photovoltaic electricity system. This system is highly efficient and is capable of converting solar energy into usable electricity. With a pure sine wave inverter, this system can provide 12V/24V voltage and has a working temperature range of -20°C~60°C. The size of the system can be customized to meet specific requirements. Solar Power System is the ideal choice for those looking to benefit from solar energy, providing an effective and reliable

solar electricity system.

Features:

Product Name: Solar Power System -----
Power: 1000W
Size: Customized
Voltage: 12V/24V
Application: Home/ Commercial/ Industrial
Type: Solar Power System
Specialities: Solar Electrical System, hybrid solar system, off grid solar system, clean energy

Technical Parameters:

Parameter	Value
Product Name	Solar Photovoltaic Power System
Application	Home/ Commercial/ Industrial
Battery	Lithium Battery
Solar Panel	Monocrystalline
Working Temperature	-20°C~60°C
Display	LCD Display
Waterproof Level	IP65
Size	Customized
Power	1000W
Controller	MPPT
Inverter	Pure Sine Wave

Applications:

Yahua Lighting's YHZ-SPS Solar Power System is a breakthrough hybrid solar system with high efficiency. This system is designed to generate solar power for home, commercial and industrial usage. It is developed and manufactured by Yahua Lighting in Guangdong, China and includes Monocrystalline solar panel and Lithium battery. With the latest technology, this solar system is capable of working in temperature range from -20°C to 60°C. This cutting-edge Solar Power Generation System is the most reliable and trustworthy option for all your solar power needs.

Customization:

Yahua Lighting YHZ-SPS Solar Power System -----
Yahua Lighting YHZ-SPS Solar Power System is a custom designed solar power generation system which provides solar photovoltaic electricity. It is manufactured in Guangdong, China and has a working temperature range of -20°C to 60°C. It is also IP65 waterproof and comes with a 10-year warranty. The size of the system is customizable and it is suitable for all kinds of solar power systems.

Support and Services:

Solar Power System Technical Support and Service -----
Our team of certified technicians provides technical support for Solar Power System and all related products. Our technical support staff is available 24/7 to answer questions, provide troubleshooting and resolution guidance, and help with installation and setup. Our team of certified technicians can also provide on-site services for more complex needs.
We also provide comprehensive maintenance and repair services for Solar Power System and all related products. Our experienced technicians can diagnose and repair any issues with the system quickly and efficiently, and our service rates are competitive. We also offer extended warranty services for your Solar Power System, so you can be confident that your system is covered for the long-term.

Packing and Shipping:

Packaging and Shipping of Solar Power System
The Solar Power System will be shipped in a box with bubble-wrap and other protective materials.
The box should be labeled with the product name, content and destination.

All packages should be securely sealed to ensure no leakage or damage during transit.
The package will be shipped via a reliable and safe courier service.

FAQ:

- Q: What is the brand name of the Solar Power System? -----
- A: The brand name of the Solar Power System is Yahua Lighting.
- Q: What is the model number of the Solar Power System?
- A: The model number of the Solar Power System is YHZ-SPS.
- Q: Where is the Solar Power System made?
- A: The Solar Power System is made in Guangdong, China.
- Q: What components are included in the Solar Power System?
- A: The Solar Power System includes solar panels, battery, inverter, charge controller, and accessories.
- Q: How long is the life span of the Solar Power System?
- A: With proper maintenance, the Solar Power System can last up to 20 years.
