

## 300W Seperate Green Power Waterproof Solar Panel Split Solar Street Light With Panel Outdoor

Our Product Introduction

for more products please visit us on solarledstreet-light.com

### Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Model Number: YHZ-SSL
- Minimum Order Quantity: 1
- Price: USD105-249
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/month

### Product Specification

- Lighting Time: More Than 12 Hours
- Lighting Angle: 140°
- Battery Capacity: 25.6V 32Ah/48Ah
- Sensing Distance: 20-25m
- Installation Height: 9-12m
- Warranty: 3 Years
- Color Temperature: 6000K
- Solar Panel: Monocrystalline Silicon
- Highlight: **300W Solar Street Lamp, Waterproof Split Solar Street Light 300W, Outdoor Waterproof Split Solar Street Light**

Our Product Introduction

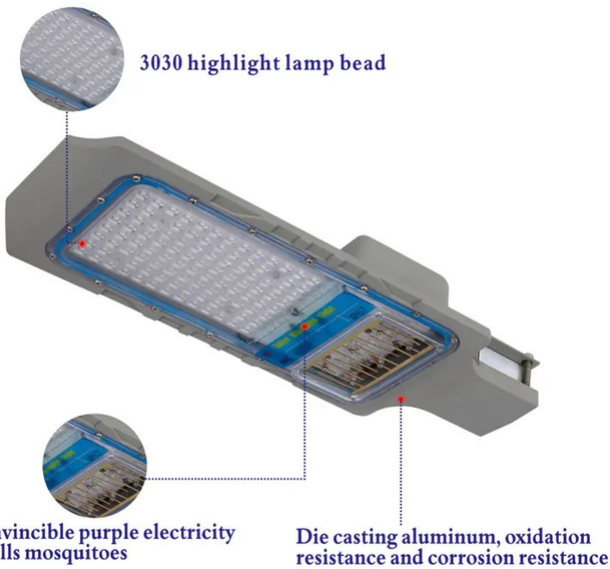

### Product Description

#### Seperate Green power solar panel systems 300 watt Split Solar Street Light with panel

#### Product Description:

Our Integrated Solar Street Light is the perfect choice for providing long-lasting and energy-efficient lighting for outdoor applications. This product is an integrated solar lighting system that is designed to provide cost-effective, reliable and sustainable lighting. It is powered by a 150W LED light source with a color temperature of 6000K, making it a perfect lighting solution for outdoor areas. The installation height is 9-12m, making it an ideal choice for both public and private areas. The body is made of aluminum alloy, making it durable, strong and corrosion-resistant. Our Integrated Solar Street Lighting System is the perfect way to light up the streets and outdoor areas with a reliable, cost-effective and energy-efficient lighting system.

**Features:**

Product Name: Integrated Solar Street Light  
Light Source: LED  
Battery Capacity: 25.6V 32Ah/48Ah  
Installation Height: 9-12m  
Voltage: 25.6V  
Luminous Flux: 150-160LM/W  
Features: All-in-one Solar Street Light, Integrated Solar Streetlamp.

**Technical Parameters:**

| Property            | Value                             |
|---------------------|-----------------------------------|
| Product Name        | LED Street Light With Solar Panel |
| Working Temperature | -20 ~+60                          |
| Lighting Angle      | 140°                              |
| Lighting Time       | More Than 12 Hours                |
| Material            | Aluminum Alloy                    |

|                   |  |
|-------------------|--|
| Warranty          | 3 Years  |
| Solar Panel       | Monocrystalline Silicon  |
| Color Temperature | 6000K  |
| Battery Capacity  | 25.6V 32Ah/48Ah  |
| Waterproof Level  | IP65   |
| Power             | 150W   |
| Keywords          | Split Solar Street Light, Solar Powered Outdoor Light, LED Street Light With Solar Panel |
| Lumen             | 120lm/w  |

### Applications:

Our LED Street Light With Solar Panel is a cutting-edge lighting solution that combines energy efficiency, environmental sustainability, and reliability. With its advanced LED technology, this streetlight delivers exceptional brightness and illumination while consuming minimal energy. This translates to reduced energy costs and a smaller carbon footprint compared to traditional street lighting systems. Designed for durability, this street light is built to withstand harsh weather conditions and has a long, maintenance-free lifespan. Its sturdy construction ensures reliable performance and resilience against outdoor elements, making it suitable for a wide range of applications such as residential areas, roads, pathways, and parking lots.

### Features:

1. Exceptional Brightness: Equipped with top-grade chips, this street light delivers powerful illumination with consistent luminosity, ensuring optimal visibility.
2. Effective Heat Dissipation: Engineered with an aluminum sheet to promote efficient dissipation of heat, preventing overheating and prolonging the lifespan of the light.
3. Ample Battery Capacity: Features a generously sized battery box that accommodates a high-capacity battery, ensuring longer operational periods and efficient energy storage.
4. Weatherproof Design: Boasts an IP65 rating, guaranteeing superior resistance against dust and water ingress, ensuring durability and reliability in challenging weather conditions.
5. High-Efficiency Solar Panel: The Solar Panel With Street Light incorporates a cutting-edge solar panel that efficiently converts sunlight into electricity, maximizing energy generation potential.
6. Automotive-grade Power Battery: Utilizes a power battery commonly found in automobiles, designed with a remarkable lifespan of over 2700 cycles, ensuring outstanding durability and long-lasting performance.

### Customization:

Yahua Lighting is a leading manufacturer and supplier of Integrated Solar Street Light. Our Integrated Solar Lighting System, YHZ-SSL Model Number, is CE, IP65, ROHS and ISO certified and comes with competitive price. It is a 25.6V 150W solar lighting system with LED light source, monocrystalline silicon solar panel and 6000K color temperature. Each Integrated Solar Street Light is supplied with anti-collision and shatterproof packaging and has a minimum order quantity of 1. Payment methods include T/T, Western Union, MoneyGram and delivery time is 5-8 days. We have a monthly supply capacity of 500Pcs.

### Support and Services:

Integrated Solar Street Light Technical Support and Service

We provide comprehensive technical support and service for our Integrated Solar Street Lights. Our technical support team is available 24/7 to answer any questions or concerns you may have regarding the installation, operation, or maintenance of your solar street light. We also provide troubleshooting assistance, as well as parts replacement and repair services. Our technical support team is knowledgeable and experienced in all aspects of solar street light installation, operation, and maintenance. Our team is always ready to help you maximize the performance of your solar street light. If you have any questions or concerns about your Integrated Solar Street Light, please do not hesitate to contact us. We look forward to helping you get the most out of your solar street lighting system.

### Packing and Shipping:

Integrated Solar Street Light Packaging and Shipping:

The integrated solar street light will be packed in a cardboard box with the product securely placed inside. The box will be marked with the product name, company logo, and other relevant information. The box will then be placed inside a second box for shipping. The shipping box will be labeled with the same information as the product box as well as shipping information. The shipping box will be sealed with tape for maximum security.

### FAQ:

Q: What is Integrated Solar Street Light?

A: Integrated Solar Street Light is an energy-saving and environment-friendly lighting system, which uses solar energy as its power source. It is a new type of street lighting system that integrates LED lights, solar panels, batteries, and controllers.

Q: What is the brand name of Integrated Solar Street Light?

A: The brand name of Integrated Solar Street Light is Yahua Lighting.

Q: What is the model number?

A: The model number is YHZ-SSL.

Q: Where is it made?

A: The Integrated Solar Street Light is made in China.

Q: What certifications does it have?

A: The Integrated Solar Street Light has CE, IP65, ROHS, and ISO certifications.
