24/7 customer service hotline

Online technical support

Warranty registration and replacement

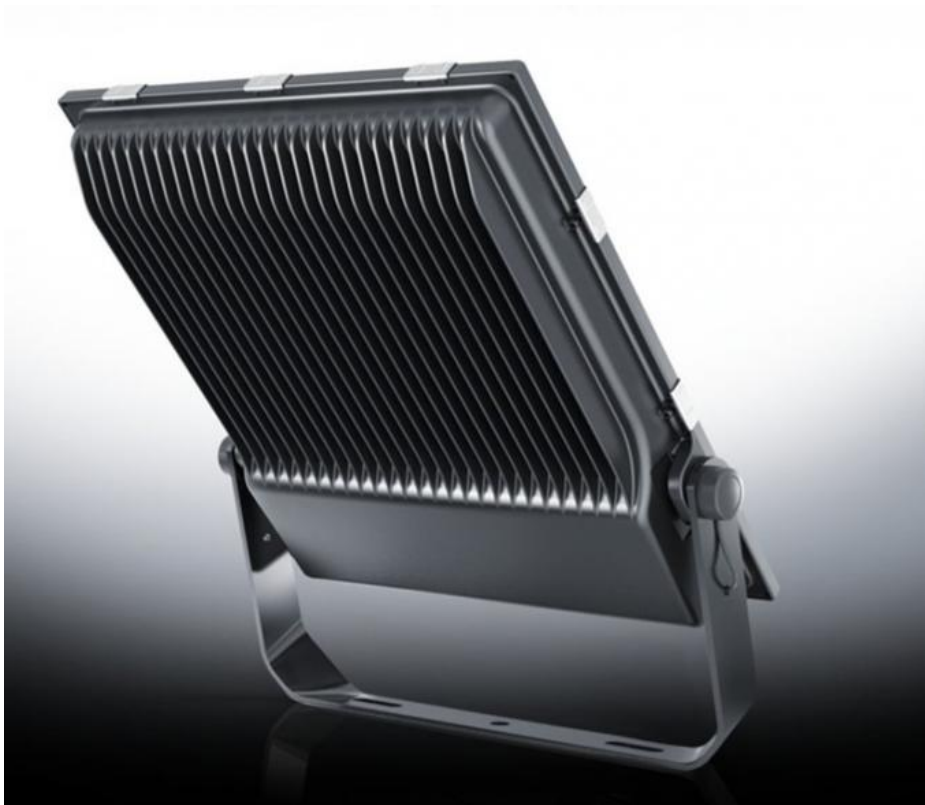

If you have any questions or need assistance with your LED Flood Light, please contact us. We are here to help and ensure that your product meets your needs and expectations.

Packing and Shipping:

LED Flood Light packaging and shipping should follow strict guidelines to ensure the product reaches its destination in perfect condition.

The LED Flood Light should first be placed in a sealed plastic bag for protection against moisture and dust. The bag should then be placed in a cardboard box with plenty of cushioning material to protect the product from any shocks or vibrations during transit. The box should be sealed using quality packaging tape and clearly labeled with the destination address and any other relevant information.

The package should then be sent to its destination using a reliable shipping service that is equipped to handle fragile goods. The package should be tracked regularly to ensure it reaches its destination on time and in perfect condition.
