Product Description

Product Description:

The solar garden lamp is composed of a solar panel, LED lamp, maintenance-free rechargeable battery, automatic control circuit, lamps, and so on. It mainly uses the storage of the battery on the solar panel. When the sun shines on the solar panel during the day, the light energy is converted into electric energy and stored in the battery on the solar panel. The advantages of the lamp are safety, energy saving, convenience, environmental protection, and so on. It is suitable for the decoration of the lawn in the garden of a residential area, the lawn in the park, or a scenic area.

Our Product Introduction

Features:

Solar charging, energy saving, and environmental protection.
No need for wire to connect, safe, reliable, solar panels with a 15-year long lifespan.
With excellent waterproof performance, this light can be used in outdoor applications.
High brightness.
High quality and reliability.
High efficiency and energy saving.
High security.
Easy installation.

Technical Parameters:

Parameter	Value
Lighting mode:	Motion Sensor, Time Control
Battery Type:	3.7V/2000mAh
	high grade 200LM/W low grade 80-100LM/W
Power:	200W 300W 500W
