#### **Product Description:**

Experience hassle-free outdoor lighting with our solar street light. This innovative solution offers up to 12 hours of automatic lighting at night, covering an area of up to 250sqm. With a charging time of approximately 6-8 hours, it stands at an ideal installation height of 3-4m. With its IP67 weather resistance and sleek silver color, this solar street light is a reliable and stylish choice for any outdoor space.

#### Features:

1. High-Grade Solar Panel: Utilizes separated, larger Poly-crystalline Silicon solar panels designed to function in temperatures from - 20°C to 60°C, ensuring efficiency in various weather conditions.

2. Ultra Bright Solar Lights: Features 192/300 super bright LED 6500K beads offering brightness levels of 1200/2200/3000/3800 lumens, providing exceptional illumination.

3. Waterproof and durable: Boasts an IP65 waterproof rating, ensuring resilience against extreme weather conditions such as rain, sleet, and snow for long-lasting performance.

4. Easy to Install: Simplifies installation with easy mounting on walls or posts using screws, eliminating the need for wires or adapters for a hassle-free setup process.

5. Remote Control 5 Modes: Offers convenient remote control functionality with 5 modes including Auto (recommended), Constant light, 3 hrs Constant light, 5 hrs Constant light, and 8 hrs Constant light, allowing for customizable lighting options.

6. Longer Lasting Battery: Equipped with a longer-lasting lithium battery capable of providing up to 8 hours of illumination on a full charge, ensuring extended and reliable usage.
