

Efficient All In One Solar Lamp Monocrystalline Silicon Panel 25.6V 6000K IP65

Our Product Introduction

For more products please visit us on solarledstreet-light.com

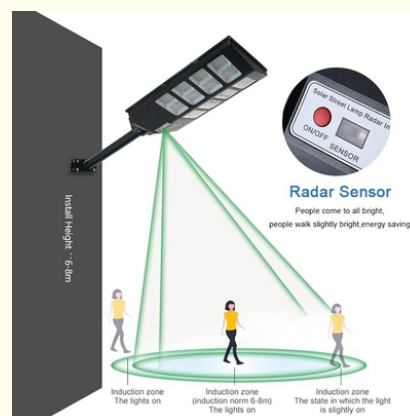

Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/month

Product Specification

- Voltage: 25.6V
- Warranty: 3 Years
- Material: Aluminum Alloy
- Lighting Angle: 140°
- Battery Capacity: 25.6V 32Ah/48Ah
- Light Source: LED
- Color Temperature: 6000K
- Luminous Flux: 150-160LM/W
- Highlight: **integrated solar lamp monocrystalline silicon, ip65 all in one solar lamp, integrated solar street lamp 25.6V**

Product Description

Product Description:

Introducing our innovative solar-powered street light, equipped with high conversion solar panels to maximize energy efficiency. The intelligent light control function ensures optimal usage, while the IP66 rating guarantees durability in various weather conditions. The 2835 lamp provides bright illumination, complemented by a large-capacity lithium battery for extended usage. With a radar sensor, the light operates dynamically, conserving energy when possible. This sustainable lighting solution is ideal for urban and rural areas, offering reliable, cost-effective, and environmentally friendly illumination.

Features:

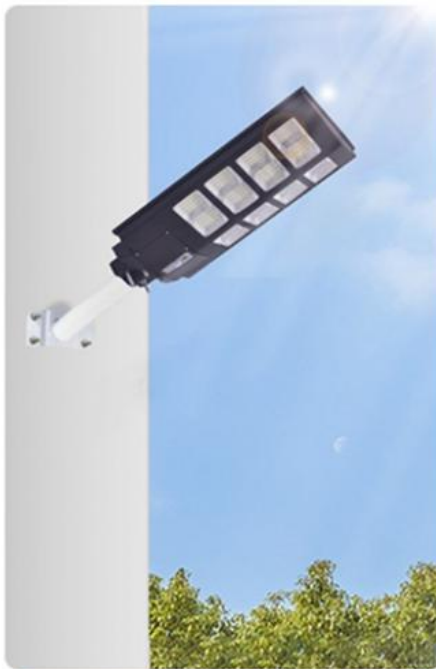

- 1. Power:** The solar street lights are available in a range of power options, ranging from 80W to 200W. This allows for flexibility in selecting the appropriate brightness level based on the specific lighting requirements of the area.
- 2. Waterproof Level:** These solar street lights have a waterproof level of IP65, ensuring their durability and reliability in various weather conditions. They are designed to withstand rain, snow, and other outdoor elements, making them suitable for outdoor installations.
- 3. Lighting Angle:** The lighting angle of these solar street lights is 140°, providing a wide coverage area. This broad illumination angle enables effective lighting distribution and ensures that a larger area is illuminated.
- 4. Battery Capacity:** The solar street lights are equipped with a high-capacity battery with options of either 25.6V 32Ah or 25.6V 48Ah. The battery stores the solar energy collected during the day to power the lights during the night, ensuring consistent lighting performance.
- 5. Sensing Distance:** The solar street lights feature a sensing distance of 20-25 meters. This means that the integrated motion sensor can detect movement within this range, triggering the lights to switch on. It enhances energy efficiency by only activating the lights when needed, optimizing battery life, and reducing power consumption.

Technical Parameters:

Watt	600W	800W	1000W
Battery	3.2V/12000mAH	3.2V/18000mAH	3.2V/24000mAH
Solar Panel	6V/18W	6V/30W	6V/34W
Product Size	447*70*342mm	597*70*342mm	677*70*342mm
IP Rating	IP65		
Lamp Body Material	ABS+PC		
Working Temperature	-20°C~40°C		
Application	Road, Countryside, Park		
Warranty	2 Years		
Certification	CE, RoHS		

INTELLIGENT LIGHT CONTROL

When it gets dark, it gets light and when it gets light, it goes out

Automatic charging during the day

Automatic light at night

Support and Services:

Integrated Solar Street Light provides technical support and services for customers including:

- 24-hour customer service hotline
- Free installation and maintenance services
- Regular maintenance and repairs
- Regular system updates
- Online system troubleshooting
- On-site technical support

Packing and Shipping:

Packaging and Shipping for Integrated Solar Street Light

The Integrated Solar Street Light is securely packaged to ensure that it is not damaged during shipping. Packaging materials include:

- High-quality cardboard box
- Bubble wrap
- Packing peanuts

The product is shipped via a reliable carrier and is tracked to ensure a safe delivery. Please contact us if you need faster shipping options.

FAQ:

Integrated Solar Street Light FAQs

Q: What is the brand of your integrated solar street light?

A: Our integrated solar street light is Yahua Lighting, which is from China.

Q: What is the certification of your integrated solar street light?

A: Our integrated solar street light has CE IP65 ROHS ISO certification.

Q: What is the packaging of your integrated solar street light?

A: Our integrated solar street light is packed with anti-collision and shatterproof packaging.

Q: How long will it take to deliver your integrated solar street light?

A: It will take 5-8 days for delivery.

Q: What payment terms do you accept for integrated solar street light?

A: We accept T/T, Western Union, MoneyGram for payment.

Q: How many integrated solar street lights can you supply each month?

A: We can supply 500Pcs/month.
