Product Description

IP65 Integration 60W 90W 100W 120w 150w 180w 200w led Solar Street Light

- The solar street light features an all-in-one design, integrating a top solar energy panel that efficiently absorbs solar energy and converts it into electricity, resulting in cost savings on electricity usage.
- It is equipped with 416 LED beads, surpassing other 200W street lights in brightness and illumination.
- The light is equipped with an 18000 mAh lithium iron phosphate battery that is explosion-proof, ensuring long-term lighting capabilities and durability.
- It includes a radar sensor and remote control, automatically switching on at dusk and off at dawn, while also starting the charging process. Additionally, with full daytime charging, it can support 2-3 nights of continuous lighting. The radar sensor has a range of 6-8 meters, and the light can illuminate an area of 100-150 square meters.
- The light is designed for easy installation, suitable for wall installation, and operates maintenance-free without the need for wiring or trenching. It holds an IP65 waterproof rating, making it suitable for use in various harsh weather conditions without the worry of damage in the rain. Before installation or charging, the switch needs to be turned on.
- It is highly versatile, suitable for mounting on walls, fences, trees, steps, and more, providing illumination for gardens, hallways, flowerbeds, pillars, decks, yards, patios, driveways, and other locations.
- The product comes with friendly customer service and is available in a variety of options. Customers are encouraged to reach out with any inquiries, and the store commits to providing satisfactory answers promptly.
