

## Automated Solar LED Street Light ABS Shell 100-300W 6500K 3.2V Solar Street Light

### Our Product Introduction

for more products please visit us on [solarledstreet-light.com](http://solarledstreet-light.com)

#### Basic Information

- Place of Origin: Guangdong China
- Brand Name: Yahua Solar Street lighting
- Certification: EMC, RoHS, CE, FCC, LVD
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500 pcs/month

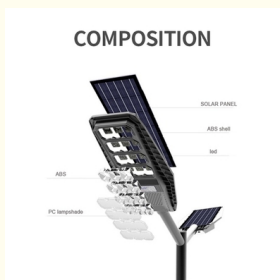

#### Product Specification

- Luminous Flux: 150lm/w
- IP Rating: IP65 Waterproof
- Color Temperature: 3000K-6500K
- Warranty: 5 Years
- Application: Road , Street , Yard, Park, Garden Etc
- Lighting Mode: Remote Control+Light Control+Radar Sensor
- Life Span: 50,000hrs+
- Highlight: **300W Solar Street Light, 3.2V Solar Street Light, ABS Automated Solar LED Street Light**

## Product Description

### Specification

Product model	YH-LHZ-100	YH-LHZ-200	YH--LHZ-300
Lamp body material	ABS	ABS	ABS
Lens material	polycarbonate	polycarbonate	polycarbonate
Lamp body size(mm)	530* 270* 70	645 * 300* 70	750* 300* 70
Number of LED(pcs)	360pcs	480pcs	600pcs
Battery capacity	12000mAH	18000mAH	24000mAH
Photovoltaic panel	4 V/ 10W (420 *210 mm)	4V/ 15 W (535 * 210 mm)	4 V/ 18W (635 * 210mm)
Duration of flight	5 days	5 days	5 days
Discharge current	2.5A	3.5A	4.5A
Luminous flux	1081lm	1573lm	2136lm

### Manufacturing Technique

#### 1.Control Material Quality

We always choose the high quality materials like batteries ,solar panels,lamp bodies , and we will do incoming inspections.

#### 2.Check Production Quality

When we start production, there are workers always checking the quality around the producing line, and make sure all the lights are working well, or they will call workers to make it right .

#### 3.Aging test

After producing,we will put the lights on aging rack to test for 48 hours :

- 1.For solar lights ,we check if the batteries can charge and discharge successfully .
- 2.For LED lights,we check the quality with high-low voltage,temperature,humidity .

#### 4.Check Quality Before Pack

Before packing, there will be a third checking: QC workers will check every lights to see it they can bright. They will left the bad one, and make sure every light is in high quality .

---

## Shipping & Loading

---

---

### By Express

It is a door to door way and very fast (usually take 3-10 days) to deliver, but it is expensive, so we usually use it for sample order. DHL, FedEx, TNT, UPS are common shipping company.

### By Air

It is a door to airport way, customers usually need to pick up items from airport. It is fast but expensive, and usually take 3-7 days to arrive at the airport, suitable for middle or urgent order.

### By Sea

It is a door to port way, customer usually need to pick up items from port. It is slow but cheap, and usually take 20-40 days to arrive at the port. We use it for big and unhurried order.
