Led Chip SMD3030 Solar LED Street Light All In One Color Temperature 3000K-6500K

Our Product Introduction

For more products please visit us on solarledstreet-light.com

Basic Information

- Place of Origin: Guangdong China
- Brand Name: Yahua Solar Street lighting
- Certification: EMC, RoHS, CE, FCC, LVD
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500 pcs/month

Product Specification

- Lighting Mode: Remote Control+Light Control+Radar Sensor
- Model Name: All In One Solar Street Lighting
- Application: Road , Street , Yard, Park, Garden Etc
- Led Chip: SMD3030
- IP Rating: IP65 Waterproof
- Panel: Mono Solar Panel
- CRI: Ra>80
- Highlight: **Solar LED Street Light SMD3030,**
6500K Solar LED Street Light

Product Description:

Solar LED Street Light

The Solar LED Street Light is a revolutionary product that utilizes solar energy to provide efficient and environmentally friendly lighting solutions for various outdoor spaces. This high-quality street light is designed to be durable, waterproof and easy to install, making it the perfect choice for road, street, yard, park, garden and other outdoor areas.

Working Temperature

The Solar LED Street Light has a wide working temperature range of -40°C to 60°C, making it suitable for use in various weather conditions.

Material

Made from high-quality aluminum alloy, the Solar LED Street Light is lightweight, corrosion-resistant, and has excellent heat dissipation properties. This ensures the product's durability and longevity.

Solar Energy Powered

The Solar LED Street Light is powered by solar energy, making it a sustainable and cost-effective lighting solution. It reduces the carbon footprint and helps to preserve the environment.

High Efficiency

The Solar LED Street Light has a high luminous flux of 150lm/w, providing bright and efficient lighting for outdoor spaces. This makes it an ideal choice for areas that require high levels of lighting.

Energy Saving

With its solar-powered design, the Solar LED Street Light eliminates the need for electricity, resulting in significant energy savings. This not only reduces utility costs but also contributes to a greener environment.

Environmental Friendly

By using solar energy, the Solar LED Street Light does not emit harmful pollutants, making it an environmentally friendly lighting solution. This is especially important for outdoor areas where air quality is essential.

Durable and Waterproof

The Solar LED Street Light is designed to withstand harsh weather conditions and is waterproof, ensuring its durability and longevity. It is suitable for use in areas with heavy rainfall or extreme temperatures.

Easy Installation

The Solar LED Street Light is easy to install, eliminating the need for complicated wiring and reducing installation costs. It can be easily mounted on poles or walls, making it a hassle-free lighting solution.

Battery

The Solar LED Street Light is equipped with a high-quality Lithium Iron Phosphate battery, which has a longer lifespan and better performance compared to traditional batteries. This ensures reliable and consistent lighting for extended periods.

Application

The Solar LED Street Light is suitable for various outdoor spaces, including roads, streets, yards, parks, gardens, and more. Its versatility and high-performance make it an ideal choice for a wide range of applications. Experience the benefits of solar energy with the Solar LED Street Light - an efficient, environmentally friendly, and durable lighting solution for your outdoor spaces.

Features:

Product Name: Solar LED Street Light

Life Span: 50,000hrs+

Lighting Mode: Remote Control+Light Control+Radar Sensor

CRI: Ra>80

IP Rating: IP65 Waterproof

Certification: EMC, RoHS, CE, FCC, LVD

Solar Energy Powered Street Light

Solar Rechargeable Street Light

Integrated Solar LED Light

Technical Parameters:

Attribute	Value
CRI	Ra>80
Lighting Mode	Remote Control+Light Control+Radar Sensor
Color Temperature	3000K-6500K
Certification	EMC, RoHS, CE, FCC, LVD
Material	Aluminum Alloy
Model name	All In One Solar Street Lighting
Panel	Mono Solar Panel

Working Temperature	-40°C-60°C
Life Span	50,000hrs+
IP Rating	IP65 Waterproof

Applications:

Solar LED Street Light

Brand Name: Yahua Solar Street lighting

Place of Origin: Guangdong China

Certification: EMC, RoHS, CE, FCC, LVD

Packaging Details: Anti-collision and shatterproof packaging

Delivery Time: 5-8 days

Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 500 pcs/month

Luminous Flux: 150lm/w

Material: Aluminum Alloy

Led Chip: SMD3030

Product Description:

The Solar LED Street Light is an energy-efficient and eco-friendly lighting solution for roads, streets, yards, parks, gardens and other outdoor spaces. It is an integrated solar street lighting system, designed and manufactured by Yahua Solar Street Lighting in Guangdong, China. With its advanced technology and high-quality materials, this product offers a durable and long lifespan lighting solution for various applications.

Key Features:

Energy-saving and eco-friendly: The Solar LED Street Light uses solar energy as its power source, which is renewable and sustainable, making it an environmentally friendly choice.

Easy installation: This product is designed for easy installation, without the need for complicated wiring or external power sources.

Durable and long lifespan: Made with high-quality aluminum alloy and SMD3030 LED chips, this product is built to withstand harsh outdoor conditions and has a long lifespan.

Intelligent control system: The Solar LED Street Light has an intelligent control system that automatically adjusts the brightness according to the surrounding environment, saving energy and improving efficiency.

Waterproof and anti-corrosion: With an IP65 waterproof rating and anti-corrosion materials, this product is suitable for use in various outdoor environments.

Customizable design: The Solar LED Street Light can be customized to meet the specific requirements of different customers, making it a versatile and flexible lighting solution.

Wide range of applications: With its versatile design and high-quality performance, this product is suitable for a wide range of applications, including roads, streets, yards, parks, gardens, and more.

Application Scenario:

Imagine walking down a street at night, with only the dim moonlight to guide your way. Suddenly, the streetlights powered by traditional electricity go out, leaving you in complete darkness. This scenario is not only inconvenient but also poses safety concerns. However, with the Solar LED Street Light, this would not be a problem. The streets would be brightly lit, thanks to the energy-efficient and eco-friendly solar-powered lights.

The Solar LED Street Light is also ideal for use in parks and gardens, providing a warm and welcoming atmosphere for evening strolls or outdoor gatherings. With its customizable design and intelligent control system, the lights can be adjusted to suit different lighting needs, whether it's for a romantic dinner under the stars or a lively outdoor concert.

In addition, this product is perfect for illuminating roads and streets, providing a safe and well-lit environment for drivers and pedestrians. The durable and long lifespan of the lights means less maintenance is required, making it a cost-effective and efficient lighting solution for municipalities.

Conclusion:

The Solar LED Street Light by Yahua Solar Street Lighting is a top-of-the-line product that offers an energy-saving, eco-friendly, and versatile lighting solution for various applications. With its advanced technology, durable design, and customizable features, it is the perfect choice for those looking for a long-lasting and efficient lighting solution. So, why wait? Upgrade to the Solar LED Street Light today and enjoy the benefits of a brighter and more sustainable future.

Packing and Shipping:

Packaging and Shipping for Solar LED Street Light

Our Solar LED Street Light is carefully packaged to ensure safe delivery to our customers. Each light is individually packaged in a sturdy box to protect it from any damage during transportation. The packaging also includes foam padding and bubble wrap to provide extra cushioning for the light.

For shipping, we use reliable and trusted carriers to ensure timely and secure delivery. Our shipping partners are experienced in handling delicate products and will take all necessary precautions to ensure the safe arrival of your Solar LED Street Light.

Once your order is confirmed, we will provide you with a tracking number so you can monitor the progress of your shipment. Delivery times may vary depending on your location, but we strive to deliver your order as quickly as possible.

At Solar LED Street Light, we are committed to providing high-quality products and excellent customer service. If you have any concerns or questions about your order, please don't hesitate to contact us. We will do our best to assist you and ensure your satisfaction.

Thank you for choosing Solar LED Street Light. We hope you enjoy your new sustainable lighting solution!
