

IP65 Waterproof Solar Powered Street Lamp with LED Lamp Component

Our Product Introduction

For more products please visit us on solarledstreet-light.com

Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000Pcs/month

Product Specification

- Power: 30-200W
- Material: Aluminum Alloy
- Battery: Lithium Battery
- Waterproof Level: IP65
- Product Name: Solar Panel Street Light
- Color Temperature: 5000K-6000K
- Lighting Mode: Time Control/Remote Control
- Working Temperature: -20°C-60°C
- Highlight: **IP65 Solar Powered Street Lamp,
Solar Powered Street Lamp Waterproof**

Product Description

Product Description:

Solar Panel Street Light

The Solar Panel Street Light is a revolutionary product that combines the power of the sun with advanced technology to provide efficient and eco-friendly lighting solutions for streets, roads, and outdoor spaces. This product is designed to provide bright and reliable lighting, while also reducing energy consumption and promoting sustainability.

Product Overview

The Solar Panel Street Light consists of the following components:

LED Lamp

Mono Solar Panel

Battery Box

Battery

Connecting Wire

Solar Controller

Key Features

Solar Powered Street Lamp

The Solar Panel Street Light is powered by the sun, making it an eco-friendly and cost-effective lighting solution. It harnesses the energy from the sun to provide bright and reliable lighting, without the need for electricity.

Solar Powered Outdoor Lighting

This product is ideal for outdoor spaces, such as streets, roads, parks, and pathways. Its solar-powered design eliminates the need for wiring, making it easy to install and maintain.

Solar Powered Road Lights

The Solar Panel Street Light is specifically designed for use on roads, providing bright and efficient lighting for drivers and pedestrians. Its advanced technology ensures a safe and well-lit environment, even in remote areas.

Energy Saving

The use of solar power makes the Solar Panel Street Light an energy-efficient lighting solution. It reduces the reliance on traditional electricity sources, helping to lower energy costs and promote sustainable living.

Environmental Friendly

The Solar Panel Street Light is an eco-friendly product that helps reduce carbon footprint and promote a cleaner and greener environment. Its use of renewable energy makes it a sustainable lighting solution for the future.

Technical Specifications

The Solar Panel Street Light is designed to perform in various conditions and has the following specifications:

Component: LED Lamp, Mono Solar Panel, Battery Box, Battery, Connecting Wire, Solar Controller

Working Temperature: -20°C-60°C

Lumen: 130-150LM/W

Solar Panel: Monocrystalline Silicon

Light post: Available

The combination of these specifications ensures that the Solar Panel Street Light can withstand different weather conditions and provide bright and efficient lighting throughout the year.

Conclusion

The Solar Panel Street Light is a game-changer in the field of outdoor lighting. Its use of solar power, energy efficiency, and sustainability make it a top choice for streets, roads, and other outdoor spaces. With its advanced technology and reliable performance, the Solar Panel Street Light is the perfect lighting solution for a brighter, greener future.

Features:

Product Name: Solar Panel Street Light

Lighting Mode: Time Control/Remote Control

Light post: Available

Lighting Time: 12 Hours

Battery: Lithium Battery

Working Temperature: -20°C-60°C

Solar Powered Path Lights

Solar Powered Road Lights

Solar Powered Street Lights

Technical Parameters:

Product Name	Solar Panel Street Light
Lighting Mode	Time Control/Remote Control
Light post	Available
Color Temperature	5000K-6000K

Material	Aluminum Alloy
Lumen	130-150LM/W
Power	30-200W
Warranty	3 Years
Lighting Time	12 Hours
Waterproof Level	IP65
Working Temperature	-20°C-60°C
Key Features	Solar Powered Street Lighting, Solar Powered Path Lights, Solar Powered Streetlighting

Applications:

Solar Panel Street Light - Yahua Lighting

Solar panel street light is a type of outdoor lighting products that uses solar energy as its power source. It is an energy-saving and environmental friendly lighting solution that can be used in various outdoor areas such as streets, roads, parks, and parking lots.

Application Scenarios

Solar panel street lights are suitable for various outdoor areas that require lighting, especially those without access to electricity. They are commonly used in residential areas, commercial areas, and public spaces such as city streets, rural roads, parking lots, parks, and gardens.

Product Features

Solar Powered: Solar panel street lights convert sunlight into electricity, making them a self-sufficient and sustainable lighting solution.

Energy Saving: With its solar-powered operation, solar panel street lights can help reduce energy consumption and save on electricity costs.

Green Energy: By using solar energy, solar panel street lights produce zero carbon emissions, making them an eco-friendly lighting solution.

Environmental Friendly: Solar panel street lights do not require any external power source, avoiding the use of fossil fuels and reducing the impact on the environment.

High Lumen Output: The lumen output of solar panel street lights can reach 130-150LM/W, providing bright and efficient lighting for outdoor areas.

IP65 Waterproof: The IP65 waterproof rating ensures that solar panel street lights can withstand harsh weather conditions, making them suitable for outdoor use.

Long Service Life: With a warranty of 3 years and a supply ability of 1000pcs/month, solar panel street lights have a long service life and can provide reliable lighting for a long time.

Easy Installation: Solar panel street lights are easy to install and do not require any wiring or external power source, making them a cost-effective lighting solution.

Convenient Control: Solar panel street lights can be controlled through time control or remote control, providing convenient and flexible lighting options.

Product Components

The solar panel street light from Yahua Lighting includes the following components:

LED Lamp

Mono Solar Panel

Battery Box

Battery

Connecting Wire

Solar Controller

Certifications

The solar panel street light from Yahua Lighting has obtained the following certifications:

CE (Conformité Européenne)

IP65 (Ingress Protection)

ROHS (Restriction of Hazardous Substances)

ISO (International Organization for Standardization)

Packaging and Delivery

The solar panel street light from Yahua Lighting is carefully packaged in anti-collision and shatterproof packaging to ensure its safe delivery. The delivery time is 5-8 days and the accepted payment terms are T/T, Western Union, and MoneyGram.

Brand Name and Place of Origin

The solar panel street light is manufactured by Yahua Lighting, a company based in China with a monthly supply ability of 1000pcs/month.

Choose Solar Panel Street Light for a Brighter and Greener Future

With its energy-saving, green, and environmental friendly features, solar panel street light from Yahua Lighting is the perfect lighting solution for outdoor areas. Choose solar panel street light and contribute to the preservation of our planet's resources while enjoying bright and reliable lighting.

Packing and Shipping:

Packaging and Shipping for Solar Panel Street Light

The Solar Panel Street Light is carefully packaged to ensure safe delivery to our customers. Here is our packaging and shipping process:

Step 1: Protective Packaging

First, we wrap the individual components of the Solar Panel Street Light in protective packaging materials such as bubble wrap and foam to prevent any damage during transportation.

Step 2: Secure Packaging

Next, we place the components in a sturdy cardboard box and use additional packaging materials to secure them in place.

Step 3: Labeling

We label the box clearly with the product name, model number, and any other necessary information for easy identification.

Step 4: Shipping

Once packaged, the Solar Panel Street Light is ready for shipping. We work with reliable shipping companies to ensure timely delivery of our products to our customers.

Step 5: Tracking

Customers will receive a tracking number for their order, allowing them to track their package and know when to expect delivery.

Thank you for choosing our Solar Panel Street Light. We hope you enjoy using it for years to come.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Yahua Lighting.

Q: Where is this product manufactured?

A: This product is manufactured in China.

Q: What certifications does this product have?

A: This product is certified with CE, IP65, ROHS, and ISO.

Q: How is this product packaged?

A: This product is packaged with anti-collision and shatterproof materials to ensure safe delivery.

Q: How long does it take for delivery?

A: Delivery time for this product is typically 5-8 days.

Q: What types of payment are accepted for this product?

A: This product can be paid for with T/T, Western Union, and MoneyGram.

Q: How many units of this product can be supplied per month?

A: This product has a supply ability of 1000 units per month.
