

9-12m Installation Height All-In-One Solar Lamp with 20-25m Sensing Distance

Basic Information

- Place of Origin: China
- Brand Name: Yahua Lighting
- Certification: CE IP65 ROHS ISO
- Packaging Details: Anti-collision and shatterproof packaging
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/month

Product Specification

- Light Source: LED
- Lighting Angle: 140°
- Material: Aluminum Alloy
- Solar Panel: Monocrystalline Silicon
- Power: 80-200W
- Voltage: 25.6V
- Sensing Distance: 20-25m
- Warranty: 3 Years
- Highlight: **25m All-in-one Solar Lamp,
Integrated Aluminum Alloy Solar Lamp,
25m All-in-one Solar Lamp**

Product Description

Product Description:

Integrated Solar Street Light

The Integrated Solar Street Light is a highly efficient and eco-friendly lighting solution for outdoor areas. It is designed to be a self-sustaining and versatile lighting system that can be easily installed and maintained. This product is perfect for public spaces, streets, parking lots, and other outdoor areas that require reliable and bright lighting.

Integrated Solar Street Lighting

Integrated Solar Street Light System

The Integrated Solar Street Light features a high-quality Monocrystalline Silicon solar panel that converts sunlight into electricity with high efficiency. This solar panel is designed to withstand harsh weather conditions and has a long lifespan, ensuring a consistent and reliable source of energy for the lighting system.

The lighting time of the Integrated Solar Street Light is more than 12 hours, making it suitable for use throughout the night. It is equipped with a powerful battery that stores the solar energy generated during the day and releases it at night to power the LED lights. This enables the light to stay on for an extended period, providing bright and consistent illumination.

The working temperature range of the Integrated Solar Street Light is from -20°C to +60°C, making it suitable for use in various climates. Whether it's hot summer days or cold winter nights, this lighting system can withstand extreme temperatures and continue to function efficiently.

The color temperature of the Integrated Solar Street Light is 6000K, providing a bright and natural white light that is suitable for outdoor areas. This color temperature is ideal for enhancing visibility and ensuring safety in public spaces and streets at night.

The Integrated Solar Street Light operates at a voltage of 25.6V, making it energy-efficient and cost-effective. It consumes minimal electricity, making it an environmentally friendly and sustainable lighting solution for outdoor areas.

Overall, the Integrated Solar Street Light offers a reliable, cost-effective, and eco-friendly lighting solution for outdoor areas. Its high-quality components, long lighting time, wide temperature range, and energy-efficient operation make it a top choice for outdoor lighting needs.

Features:

Product Name: Integrated Solar Street Light

Warranty: 3 Years

Luminous Flux: 150-160LM/W

Sensing Distance: 20-25m

Lighting Time: More Than 12 Hours

Material: Aluminum Alloy

Technical Parameters:

Product Name	Integrated Solar Street Light	
Installation Height	9-12m	
Sensing Distance	20-25m	
Material	Aluminum Alloy	
Power	80-200W	
Battery Capacity	25.6V 32Ah/48Ah	
Lighting Angle	140°	
Solar Panel	Monocrystalline Silicon	
Luminous Flux	150-160LM/W	
Lighting Time	More Than 12 Hours	
Waterproof Level	IP65	
Integrated Solar Street Light		Integrated Solar Street Light
Installation Height		9-12m
Sensing Distance		20-25m
Material		Aluminum Alloy
Power		80-200W
Battery Capacity		25.6V 32Ah/48Ah
Lighting Angle		140°

Solar Panel	Monocrystalline Silicon
Luminous Flux	150-160LM/W
Lighting Time	More Than 12 Hours
Waterproof Level	IP65

Applications:

Integrated Solar Street Light - Efficient and Eco-friendly Lighting Solution

Welcome to Yahua Lighting, the leading manufacturer of Integrated Solar Street Light in China. Our all-in-one solar lamp is designed to provide a reliable and energy-saving lighting solution for various outdoor applications.

Product Overview

Our Integrated Solar Street Light is a compact, all-in-one solar lighting system that combines a solar panel, lithium-ion battery, LED light source, and intelligent controller in one unit. It is easy to install and requires no cabling, trenching, or grid connection, making it a perfect choice for remote areas with limited access to electricity.

Application Scenarios

Our Integrated Solar Street Light is suitable for a wide range of outdoor applications, including:

Street Lighting: Our solar street light provides bright and uniform lighting for roads, streets, and highways, ensuring safety for pedestrians and drivers.

Parking Lots: With its high lumen output and wide lighting angle, our solar street light is ideal for illuminating parking lots, ensuring visibility and security at night.

Parks and Gardens: Our solar street light can also be used to light up parks, gardens, and other outdoor recreational areas, creating a beautiful and safe environment for people to enjoy.

Campus Lighting: Our all-in-one solar lamp is a cost-effective and sustainable lighting solution for schools, colleges, and universities, helping to reduce energy costs and carbon footprint.

Product Features

Efficient Solar Panel: Our Integrated Solar Street Light is equipped with a high-efficiency solar panel that absorbs sunlight during the day and converts it into electrical energy to power the light at night.

Lithium-ion Battery: The built-in lithium-ion battery provides long-lasting power and ensures reliable operation even in cloudy or rainy weather.

LED Light Source: Our solar street light uses high-quality LED chips to provide bright and uniform lighting with low power consumption and a long lifespan.

Intelligent Controller: The intelligent controller in our solar street light automatically adjusts the lighting mode and brightness according to the battery level and environmental conditions, ensuring maximum energy savings.

Easy Installation: Our Integrated Solar Street Light can be easily installed on a pole or wall, making it a convenient and hassle-free lighting solution.

Certifications and Packaging

Our Integrated Solar Street Light is certified with CE, IP65, ROHS, and ISO, ensuring its quality and safety. We also provide anti-collision and shatterproof packaging to ensure the lights are delivered to our customers in perfect condition.

Technical Specifications

Brand Name: Yahua Lighting

Place of Origin: China

Certification: CE, IP65, ROHS, ISO

Packaging Details: Anti-collision and shatterproof packaging

Delivery Time: 5-8 days

Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 500Pcs/month

Voltage: 25.6V

Light Source: LED

Lighting Angle: 140°

Power: 80-200W

Warranty: 3 Years

Choose Yahua Lighting for Your Next Lighting Project

With our Integrated Solar Street Light, you can enjoy reliable and eco-friendly lighting for various outdoor applications. Contact us today to learn more about our products and how we can help you with your lighting needs.

Packing and Shipping:

Integrated Solar Street Light Packaging and Shipping

Our Integrated Solar Street Light is carefully packaged and shipped to ensure safe delivery. Each light is packed in a sturdy cardboard box with foam padding to protect it from any damage during transit. The box also includes the necessary installation accessories and user manual.

For bulk orders, the lights are packed in larger boxes and then stacked on a pallet for easier handling and transportation. The pallets are shrink-wrapped to keep the lights secure and prevent any movement during shipping.

Our shipping partners are experienced and reliable, ensuring timely and efficient delivery to our customers. We offer both air and sea freight options, depending on the location and urgency of the order.

For international orders, we take extra care to comply with all relevant customs regulations and ensure smooth delivery. We also provide all necessary documentation and certificates to facilitate customs clearance.

At Integrated Solar Street Light, we strive to provide our customers with the best packaging and shipping solutions to ensure a hassle-free experience and safe arrival of our products.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Yahua Lighting.

Q: Where is this product made?

A: This product is made in China.

Q: What certifications does this product have?

A: This product is certified with CE, IP65, ROHS, and ISO.

Q: How is this product packaged?

A: This product is packaged with anti-collision and shatterproof materials to ensure safe delivery.

Q: How long is the delivery time for this product?

A: The delivery time for this product is 5-8 days.

Q: What are the accepted payment methods for this product?

A: The accepted payment methods for this product are T/T, Western Union, and MoneyGram.

Q: What is the supply ability for this product?

A: The supply ability for this product is 500 pieces per month.
